

Dear Fellow Member of the Body of Christ,

John Heywood, 16th century British author, said, “Many hands make light work.” For instance, after chapel at LHS – Parker, all students put their chairs away. It would take a few students 15 minutes to accomplish that task. However, when each of our students puts away his own chair, it takes less than a minute. When there are more people involved in a task, it becomes easier to accomplish that task. Denver Lutheran High School and Lutheran High School – Parker’s students and staff ask you to be one of many hands that help make our future secure.

WE NEED YOU! You can make a difference, but only if you participate. Please prayerfully consider making a 3 year pledge of \$10, \$20 or \$30 a month to make a huge difference for our schools. Seventy (70) percent of your pledge will help with tuition assistance and debt reduction, the other thirty (30) percent will be used for technology development, program development and building our endowment fund. The easiest way to make a pledge is to set up a direct withdrawal on line at our secure site. Go to www.growinginhim.org and click on the hands icon, or simply return the pledge form in the enclosed envelope.

Thank you for considering this important appeal. No matter what your decision, please keep our schools in your prayers.

May God richly bless you each day!

Pastor Juls Clausen
